Dear Diane,

I am so happy with all of tropical decorating for my home in the Florida Keys. The prints & quality of the fabrics are perfect with all the tropical colors & plants. I especially love Silhouette blinds & perfectly matched top treatments & wall color in the master bed room.

My children love the new look in their rooms too! The living area is transformed with the coral mini blinds topped with the wood & fabric cornices. The indirect lighting behind the cornices brings the room to life!

Everyone that visits asks - "Who is your decorator?" I knew after the terrific job you did on my Connecticut home you could decorate long distance.

Thank you for a terrific job.

Sincerely
Charlotte Ambrogio
