Dear Dyane:

I'm sorry it's taken me so long to write to you to tell you how very pleased my wife and I are with the job you and your staff did for us in Milford.

I am well aware that the job of measuring and installing blinds and shades in a house that is 120 years old was a staggering one. You were faced with ancient and modern windows in the same house. However, all of the windows and doors were executed to perfection and we have no complaints whatsoever. In fact, we have had nothing but compliments from the visitors who come to see what we've done to the house since purchasing it.

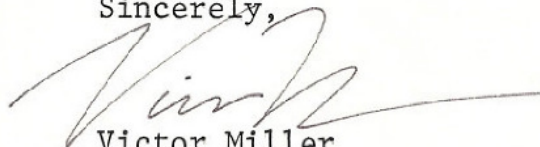

As a matter of fact, I must compliment you on your role in presenting us with the possible choices and helping us select from the various blinds, etc. Your expertise proved invaluable.

The bottom line is always price and there again you outdid yourself, giving us deals that were very competitive with other shops we had checked with.

There is no doubt that Tina and I would call on you again if we had the need for Shadee Lady's services and we are certainly singing your praises to anyone who asks.

We extend our thanks and best wishes for a Merry Christmas and a Happy New Year!

Sincerely,

Victor Miller
